Tapestry – An Online Learning Journal

Dear Parents,

At Blackbrook School, we use an online system of recording your child's learning in Reception. Tapestry is a website which can be accessed on a computer or laptop, and on any Apple or Android device such as a tablet or smartphone. We have chosen this company because they are a secure and interactive way of keeping track of your child's development and their time with us.

We will be able to instantly upload photos, videos and observations of your children. You will be able to log on and view what your child has been up to, add your own comments to entries.

The safeguarding of our children is very important to us. Everything that is added to Tapestry will be added to our school account and can only be viewed by school staff that use the system, and yourself, using your own log on. You will only have access to your child's own book, and this cannot be seen by other parents. Also, it is crucial that you do not share photos or videos from your child's book on social media or through other online platforms because other children may be visible in the background.

On [Tapestry's website](#), you can find information and tutorials for parents. You can give consent for the use of Tapestry via your child's profile on the Arbor Parent Portal or App.

Once you have given consent on Arbor, you will receive an email with an activation link to activate your Tapestry profile. This email can sometimes end up in the spam folder. You will need to choose a password, which you will use to log in to both the Tapestry app and the desktop version. You'll also be able to set up a 4-digit PIN to quickly log in to the app. Your profile will be linked to your child's, so please refrain from sharing your details with other users. We can link as many adults as needed to every child, so please let us know if you'd like additional family members added to Tapestry.

If you have any further questions, please do not hesitate to contact the school.

Best Wishes,

The EYFS Team
